VINIFIKATION

The grapes are harvested by hand. Smooth procession with gravity, without pumping. Spontaneous mash fermentation, 8 weeks of skin contact, on the full lees until filling and just removed shortly before.
No fining, treatments or sterile filtration.

TASTING NOTES

Orange-golden colour, fine turbidity, complex, dried citrus fruits, dates, very floral - especially chamomile.
The wine has a slight touch of tannins, which results in a nice mouthfeel and a great drinking flow.

FOOD PAIRING

Suits with hefty cheese, creamy pasta- & risotto dishes, gratinated chicken breast or sliced meat.
